

Akari Therapeutics to Participate in the Corporate Connect Webinar Series Virtual Conference Hosted by Webull Financial

– [Live video webcast](#) on Tuesday, February 10th at 1:00 PM EST

TAMPA and LONDON – February 5, 2026 – Akari Therapeutics, Plc (Nasdaq: **AKTX**), an oncology biotechnology company pioneering next-generation antibody drug conjugates (ADCs) powered by novel RNA-splicing payloads, today announced that it will participate in the [Corporate Connect Webinar Series hosted by Webull Financial](#) being held virtually February 10-11, 2026.

As part of the presentation, [Abizer Gaslightwala, Director, President and CEO of Akari Therapeutics](#), will provide a corporate overview highlighting the Company's next-generation antibody drug conjugate platform and proprietary PH1 spliceosome-modulating payload. He will discuss Akari's lead program, AKTX-101, a Trop2-targeting ADC designed to deliver PH1 directly to tumors with limited off-target effects, as well as ongoing IND-enabling activities targeting a first-in-human trial in late 2026 or early 2027. Mr. Gaslightwala will also provide a brief update on AKTX-102, an additional ADC program focused on GI and lung cancers.

Details of the presentation are as follows:

Date and Time: Tuesday, February 10, 2026 at 1:00 PM EST

Presenter: [Abizer Gaslightwala, Director, President and CEO of Akari](#)

Registration Link: [Here](#)

About Webull Financial

Webull Financial is a leading online brokerage platform committed to empowering self-directed investors with innovative tools and cutting-edge technology. With low-cost trading on a wide range of assets, advanced charting tools, and real-time market data, Webull is revolutionizing the way individuals approach investing. The user-centric approach and commitment to staying at the forefront of industry trends underscore the mission to provide a seamless and rewarding experience for traders of all levels. Through the Webull Group, Webull Financial and its affiliates combine to serve tens of millions of users from over 180 countries worldwide. Securities and futures trading is offered to customers by Webull Financial LLC ("Webull Financial"), a broker-dealer registered with

the Securities and Exchange Commission (SEC) and a futures commission merchant registered with the Commodity Futures Trading Commission (CFTC). Webull Financial is a member of the Financial Industry Authority (FINRA), the National Futures Association (NFA), and the Securities Investor Protection Corporation (SIPC). All investing is subject to risk, including the possible loss of principal. For more information about Webull, visit www.webull.com.

About Akari Therapeutics

Akari Therapeutics is an oncology biotechnology company developing next-generation antibody drug conjugates (ADCs) with a unique payload, PH1, which targets RNA splicing. Utilizing its innovative ADC discovery platform, the Company has the ability to generate ADC candidates and optimize them based on the desired application to any antigen target of interest. Akari's lead candidate, AKTX-101, targets the Trop2 receptor on cancer cells and with a proprietary linker, enabling it to deliver its novel PH1 payload directly into the tumor with minimal off-target effects. Unlike current ADCs that use tubulin inhibitors and DNA damaging agents as their payloads, PH1 is a novel payload that is a spliceosome modulator designed to disrupt RNA splicing within cancer cells. This splicing modulation has been shown in preclinical animal models to induce cancer cell death while activating both the innate and adaptive immune system to drive robust and durable activity. In preclinical studies, AKTX-101 has shown to have significant activity and prolonged survival relative to ADCs with traditional payloads. Additionally, AKTX-101 has the potential to be synergistic with checkpoint inhibitors and has demonstrated prolonged survival as both a single agent and in combination with checkpoint inhibitors. The PH1 payload has also been demonstrated to be very active against cancer cells with key oncogenic drivers such as KRAS, BRAF, ARV7, FGFR3 fusions, and others. The Company has initiated IND enabling studies for AKTX-101 with a goal of starting its First-In-Human trial by late 2026/early 2027, and is also advancing AKTX-102, an ADC against a novel target highly relevant in GI and lung cancers. Cautionary Note Regarding Forward-Looking Statements

This press release includes express or implied forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, about the Company that involve risks and uncertainties relating to future events and the future performance of the Company. Actual events or results may differ materially from these forward-looking statements. Words such as “will,” “could,” “would,” “should,” “expect,” “plan,” “anticipate,” “intend,” “believe,” “estimate,” “predict,” “project,” “potential,” “continue,” “future,” “opportunity” “will

likely result,” “target,” variations of such words, and similar expressions or negatives of these words are intended to identify such forward-looking statements, although not all forward-looking statements contain these identifying words. Examples of such forward-looking statements include, but are not limited to, express or implied statements regarding the ability of the Company to advance its product candidates for the treatment of cancer and any other diseases, and ultimately bring therapies to patients. These statements are based on the Company’s current plans, estimates and projections. By their very nature, forward-looking statements involve inherent risks and uncertainties, both general and specific. A number of important factors, including those described in this communication, could cause actual results to differ materially from those contemplated in any forward-looking statements. Factors that may affect future results and may cause these forward-looking statements to be inaccurate include, without limitation: the Company’s need for additional capital; the potential impact of unforeseen liabilities, future capital expenditures, revenues, costs, expenses, earnings, synergies, economic performance, indebtedness, financial condition and losses on the future prospects, business and management strategies for the management, expansion and growth of the business; risks related to global as well as local political and economic conditions, including interest rate and currency exchange rate fluctuations; potential delays or failures related to research and/or development of the Company’s programs or product candidates; risks related to any loss of the Company’s patents or other intellectual property rights; any interruptions of the supply chain for raw materials or manufacturing for the Company’s product candidates, including as a result of potential tariffs; the nature, timing, cost and possible success and therapeutic applications of product candidates being developed by the Company and/or its collaborators or licensees; the extent to which the results from the research and development programs conducted by the Company, and/or its collaborators or licensees may be replicated in other studies and/or lead to advancement of product candidates to clinical trials, therapeutic applications, or regulatory approval; uncertainty of the utilization, market acceptance, and commercial success of the Company’s product candidates; risks related to competition for the Company’s product candidates; and the Company’s ability to successfully develop or commercialize its product candidates. While the foregoing list of factors presented here is considered representative, no list should be considered to be a complete statement of all potential risks and uncertainties. More detailed information about the Company and the risk factors that may affect the realization of forward-looking statements is set forth in the Company’s filings with the SEC, copies of which may be obtained from the SEC’s website at www.sec.gov. The Company assumes no, and hereby disclaims any, obligation to update the forward-looking statements contained in this press release except as required by law.
